

Certified Compostable Foodservice Items from Biodegradable Products Institute

Updated May 2015

Certified Compostable Foodservice Items from Biodegradable Products Institute

List Notes

1. Information was taken directly from BPI's website and company websites. Any information omitted was not intentional. Inclusion on the list does not indicate endorsement of one company or another by Eco-Cycle, its board or staff.
2. When contacting a company or wholesaler, be sure to indicate interest in BPI Certified compostable foodservice ware and/or BPI Certified compostable bags and liners, because they may also offer similar product lines that are not compostable.
3. Many companies will offer special design and manufacturing to produce new containers (for certain size, function) if similar to other products they currently offer.
4. Only companies with a U.S. and/or Canada presence, manufacturers or distributors, are listed.

Company Website/contact information	Description of items manufactured & sold
