

## Environmental Benefits of Recycling

[Return to Office of Waste Management Home Page](#)

Material	Energy Savings with Recycled vs. Virgin	Environmental Impact with Recycled vs. Virgin	Natural Resource Savings with Recycled vs. Virgin	Miscellaneous Information
				
<b>Aluminum</b>	95% energy savings; recycling of one aluminum can saves enough energy to run a TV for 3 hours (Reynolds Metal Company)	Reduces pollution by 95%, (Reynolds Metal Co.)	4 lbs. of bauxite saved for every pound of aluminum recycled (Reynolds Metal Co.)	Enough aluminum is thrown away to rebuild our commercial air fleet 4 times every year
	50% energy savings (Center for Ecological Technology); recycling of one glass container saves enough energy to light a 100-watt bulb for 4 hours (EPA)	20% less air pollution; 50% less water pollution (NASA)	1 ton of glass made from 50% recycled materials saves 250 lbs. of mining waste (EPA)	Glass can be reused an infinite number of times; over 41 billion glass containers are made each year (EPA)
<b>Glass</b>				
	60% energy savings (Center for Ecological Technology)	95% less air pollution; each ton saves 60 lbs. of air pollution (Center for Ecological Technology)	Recycling of each ton of paper saves 17 trees and 7000 gallons of water (EPA)	Every year enough paper is thrown away to make a 12' wall from New York to California
<b>Paper</b>				
	Plastic milk containers are now only half the weight that they were in 1960 (EPA)		If we recycled every plastic bottle we used, we would keep 2 billion tons of plastic out of landfills (Penn State)	We use enough plastic wrap to wrap all of Texas every year (EPA)
<b>Plastic</b>				
	74% energy savings; every pound of steel being recycled saves enough energy to light a	Every year we create 11.5 million tons of ferrous wastes (Steel	One ton of recycled steel saves 2,500 lbs. of ore, 1000 lbs. coal, and 40 lbs. limestone (Center for	Enough iron & steel is discarded in the US to continually supply the nation's automakers
<b>Steel</b>				

60-watt bulb for 24  
hours (Penn State

Recycling Institute)

Ecological Technology)
